

Working on behalf of

A49 Peterstow resurfacing and Harewood End junction improvement: Traffic Management Update

26 August to 01 September 2019

Welcome to our traffic management update for the A49 Peterstow resurfacing and Harewood End junction improvement works.

Work will continue with night time work from Monday 19 August for the remainder of the works. Work will begin at 9pm and finish at 6am, and there will be no restrictions on the A49 during the day. Unfortunately, there will be additional noise and lighting overnight that may cause some inconvenience to local residents, however please be assured that we'll do our best to mitigate these.

What have we completed so far

Week commencing 19 August 2019, the remainder of the resurfacing was completed along the A49.

Summary of the next 5 days of traffic management

We will be completing the road markings and road studs through the full extent of the scheme, the work will take place on Tuesday 27 August and Wednesday 28 August. We expect to complete work with the last nights scheduled work being Wednesday 28 August, but there is a possibility some drainage work will remain.

No work will be carried out overnight on Thursday 29 August and Friday 30 August due to Peterstow Cider Festival.

Any remaining drainage work will be re-programmed under traffic light lane closures if required.

Access will remain open for emergency vehicles and access to frontages will be maintained. We're sorry for the disruption and inconvenience; please plan and allow extra time for your journey. For further information about the traffic management, please contact: info@highwaysengland.co.uk

Please be advised for the remaining days of work, we will still be requesting users to follow the signed diversion route which is down the A40 (Wilton roundabout) and up the A4137 to Harewood End junction and vice versa.

Week Commencing 26 August 2019 Traffic Management

NOTE: Our planned road work may be subject to change due to weather conditions or unforeseen circumstances. Where possible, we will notify you if there are any changes to the schedule.
